**ADEQUATE FAMILY FOOD ALLOWANCES AND HOW TO CALCULATE THEM**

Massachusetts . . . New York . . . Washington, D. C. . . . Illinois . . . Texas . . . Montana . . . Washington (state) . . . California . . . in whatever section of the country you may be located—this pamphlet gives the amount of various foods necessary for every member of a family, it shows how to make a market order for a family from foods available and used locally, and it will help you *calculate an adequate food allowance* for families under your care.

How to provide for the special needs of the expectant mother, the elderly man or woman, the "extra nourishment" prescribed by the doctor, lunches away from home; how to revise the food allowance; adaptation to rural communities; important facts about food—nutritive values and vitamins and mineral content of the various foods.

*36 pages* *10 copies, $3.50* *each, 40 cents*
